

let's get
cozy

The logo features the text "let's get" in a simple, dark grey, sans-serif font, positioned above the word "cozy". The word "cozy" is rendered in a large, white, cursive script font. Both the text and the background of the letters are layered to create a 3D effect. The layers consist of an orange top layer, a blue middle layer, and a green bottom layer. The entire graphic is set against a light brown shadow, giving it a sense of depth and a soft, cozy feel.
